

Cannabis extraction experts.

We consult, design extraction facilities, optimize cultivation, train operators, integrate the software — then stay on to run and optimize the operation.

Consult Strategy & process	Design Extraction facilities	Cultivate Grow optimization	Train Your operators	Integrate Facility software	FLAGSHIP Manage Ongoing operations
---	---	---------------------------------------	--------------------------------	---------------------------------------	---

We don't just advise — we've **built and run our own licensed extraction facilities and high-efficiency indoor grows in Oregon and Illinois**. And we don't disappear at launch: we **stay on to manage and optimize**, so your facility performs at its best year after year.
